

# Meknes

An pristine example of the cultural interaction between Europe and Islam during the 17th century.

Founded in the 11th century by the Almoravids as a military settlement, Meknes became a capital under Sultan Moulay Ismail (1672-1727), the founder of the Alawite dynasty. The sultan turned it into a impressive city in Spanish-Moorish style, surrounded by high walls with great doors, where the harmonious blending of the Islamic and European styles of the 17th-century Maghreb are still evident today.[unesco]
