All of the band are unemployed except for Lee who's taking her A-levels at 6th form college. The band have played around 7 gigs to date mainly in and around Grays.

They also have a tape available comprising mainly of live recordings the sound is raw but enjoyable and well worth getting. They are also planning to do a studio tape sometime in the near(ish) future.

# ASSASSINS OF HOPE

Mike-Drums/Josie-Vocals/Leon-Bass/Carl-guitar...

The 'Slow Motion Suicide' tape by the Assassins, mentioned in issue one of M/T has now been deleted as the band have decided it is no longer a representation of their music or lyrics. The band are now rehearsing with a new guitarist Carl and will hopefully be ready to start gigging by the summer. Leon also asked me to thank the following people for their encouragement and friendliness: Larry, Andy, Victor, where ever you are, Peat, Ivan, Deaffy, Scarlet Tarq, Steph, Gog, Rich+Derek, and especially my mum, dad and sister Bernadette without whom..... Cheers to everyone who has been nice to me.

ESCAPISM IS NOT FREEDOM BUT IT CAN BE GOOD FUN

# The ALTERNATIVE

The Alternative first came to 'most' peoples attention when they contributed the track 'Change it' to the first Bullshit Detector, since then they had faded into apparent obscurity until about a month ago when they released a single on Crass records.....

Q. Who's in the band?

A. The present line up is:- Trinity/vocals, Rice/vocal Gogs/bass, Rodney/guitar, Linder Linger/vocals, Oee/guitar, Jaa/drums, George/sound, design, Curly/sound, lighting. A few other people without who's help it wouldn't be easy doing what we're doing... thanks.

Q. How's the single coming along?

A. We've had quite a good response from it so far, it's selling really well... just one person buying it and getting something positive from it is pretty special.

Q. Are any of the band vegetarians?

A. All of the band are vegetarians, all of us agree eating dead animals as a means of survival isn't necessary, there is no difference for us between the murder of a human being to an animal.

Q. So the band are all anti-vivisection?

A. Yes we are strongly against vivisection we are putting all profit from the tour towards the Scottish anti-vivisection group. We go on hunt demo's etc.

Q. Would you say that coming from Scotland is in anyway a disadvantage?

A. No not really, there are plenty of bands, individuals, groups doing things; bands are slowly appearing from here and there.

The band will soon be embarking on a tour:-  
April 13th-Inverness, 14th-Aberdeen, 15th-Dunfermline, 16th-Sunderland, the band are planning more dates for May. **TOO LATE!!**

The band have a tape available for £1.00 and an S.A.E. from 43 Pittencreeff St, Dunfermline, Fife,

# TAPES ETC.

## SOLDIERS OF DESTRUCTION

The S.O.D.'s have finally done something positive apart from gigging...a tape, mind you it is a live one so there couldn't have been too much work involved for em'. Anyway recorded mainly at the Clarendon on August 5th of last year the tape has nine tracks in all, the best one's being 'Cheated', 'Symphony of war' and the excellent 'stars & stripes'.

The one track on the tape not recorded at the Clarendon is a cover of Pretty Vacant recorded at the Lyceum 25th April 82'. The quality is pretty good and the tapes a must for any one who likes the Soldiers' brash style of punk...Cost £1.50, I think it's available from F.O. Records, 286 Portobello Rd, London, E10. -(i'd recomend you write & ask em be-

\*\*\*\*\*fore sending any money.

NAKED I98I-As you can tell from the title this tape is slightly out of date, I think it deserves a mention any way cos' it's so good. I honestly think this is the best tape i've come across so far, their sound is deafinitely 'punk' (dare i say it), but it's taken at their own pace..it's both original and very exciting. It's available for £1.00 and an SAE from Chris, 41 Roseberry road, Gillingham, Kent, ME7 18Q

## FACTION-THROUGH THE WINDOW, 96 Tapes.

An excellent tape!. I love every minute of it, only a little short of the Naked tape (above) it's very enjoyable!. The tape has all their best tracks including Obligatory warsong, Realisation, Another Pretty face and All that glitters. Comes complete

OMEGA TRIBE LIVE. The latest release on BBP. recorded live in Bradford on 3rd March 83' and what there is of it is very good, however £2.00 for 8 tracks (plus an intro thing (quite good)) is far too much in my opinion, It's a shame really 'cos this tape really does deserve to be heard.....

### THIS BITTER LESSON - THE VALUE OF DEFIANCE

I was really suprised by this tape, mainly cos i like it. a strange, excitingly different, mixture of poetry and songs, is in my opinion an accurate description (dare i say it!!). My favourite tracks are Poison Policy, Your Legal Slaughter and Living. Though i reckon nearly all of them are highly enjoyable, Comes complete with 16 page Lyric book from THIS BITTER LESSON, 96 Brougham rd, Hackney, London E8.

## \*SINGLES\*SINGLES\*SINGLES\*

OMEGA TRIBE-Angry songs/ALTERNATIVE-In nomine patri  
Two of the best releases on crass records in a long time, the Omega Tribe provide four really 'relaxing' enjoyable tracks, it's difficult to pick out the best tracks since their all really good.

The Alternative strike me as being alot more serious (musically) especially on the first track Anti-christ, which is stunning (in more ways than one). The 'B' side has 3 tracks in all, all taken from their demo the best one being 'Who's sussed'.

The Paramedic Squad..ep Gargoyle records.  
Described as sounding like early Killing Joke, who am i to disagree!! Definitely not my favourite record but well worth a listen 3 tracks in all but they all sound pretty much the same to me....excellent background music!(gulp).

Born BC-the power and the privelege ep. Xcentric.  
The first release by xcentric records & tapes, also the first release by Born BC, not a classic but quite enjoyable and the productions ok too! (much to my suprise i must admit) 4 tracks in all, dealing in much the same subjects as the Alternative/Omega Tribe singles but sadly it fails to leave it's mark like the other two. However it's still pretty good and well worth a listen.....

# THE CONTAMINATED

## CONTAMINATED

The Contaminated come from Woking and are one of few bands in the area who are offering an alternative style of music to the boring avant garde'futurist bullshit that seems to thrive in the area.....  
MT. When and why did the band form?

A. The band formed in august of 1982. The idea of forming a band had been there since may of that year. Since then we have had 2 lead guitar-ists taking us to our present line up of:-

Olly/Bass, Lank/Drums, Al/Vocals, BIGjohn/guitar, Mat/vocals, manager. The main reason we formed was because we felt we had something to say and we thought a group would be the best way of expressing our ideas.

MT. What are the bands main influences?

A. Our influences range from person to person so it's hard to name any specific bands.

MT. What are your songs about and who writes them?

A. Al writes most of our lyrics, but a couple have been done by the rest of the band. The songs are about various things such as vivisection, war, religion, the media, authority + the general state of the world.

MT. Do the band have any 'fixed' political views?

A. They vary from member to member, but basically they're anti-vivisection/war & government.

# GOD SAVE THE QUEEN

"FOR GOD QUEEN AND COUNTRY"

For god(the ultimate lie),Queen  
(Parasite),and Country(the  
System).

For centuries this has been  
the cry of our 'Brave,noble,her-  
oic'(stupid)"Warriors" as they  
went to be slaughtered in some  
foreign battlefield.For centuries  
we have been PROGRAMMED that this  
is the onlyway...but is it?.For centuries  
the 'People' have blindly accepted everything  
those in power have felt fit to tell us..WHY???.  
Did Jesus "Christ" ever exist? the truth is so  
distorted,who can tell?,the powers that be have  
distorted the truth beyond recognition,even they  
cannot tell truth from lie anymore.Who is to say  
that jesus was anymore than a magician,a conman  
or even a madman??.

'For my country',yet another lie 'For the people  
who run the country' would be closer it's not our  
country nor will it ever be while we accept the  
insane teachings of our rulers,the day this coun-  
try belongs to us will be the day our rulers have  
reduced it to a pile of atomic dust.Unless we  
resist the powermongers,reject their lies,we will  
forever be slaves to their schemes of power and  
wealth .

The 'Royal' Family...this has to be the most obvi-  
ous,bare-faced lie of all,How can one group of  
people claim to be superior to all others just  
because they were born in to a certain family,how  
can they claim that they are better than us and  
expect our praise and admiration while they are  
tucked up in their stately homes while others  
starve/freeze in ghettos and slums.How can they  
claim to support/represent the British people,  
while sucking us dry,stealing our money to feed  
themselves,living off our sweat and toil.And yet  
thousand flock to see them on their farcical  
parades and ceremonies,literally worshiping the  
ground they stand on,waving their poxy flags,

DISCHARGE & ENGLISH DOGS-100 club  
15/3/83...The English Dogs supported  
tonight and not the Soldiers  
of Destruction as advertised, however I don't think  
too many people were 'heartbroken' by this especially  
as the 'Dogs' played an excellent set highlighted  
by the excellent 'fight for your country (your country  
needs you)'. After a short wait on came Discharge  
as usual they burst straight into 'Never again'  
and as usual the front row of 'dancers' nearly got  
their legs broken on the front of the stage, Dis-  
charge played really well but I do think they're  
going to have to find larger venues to play in  
future the 100 club simply isn't big enough anymore

ONE WAY SYSTEM, DESTRUCTORS & SOLDIERS OF DESTRUCTION  
-100 club 22/3/83...The first band on tonight were  
the s.o.d.s and despite the fact that the venue  
was less than half full they managed to play a  
highly enjoyable set, definitely a band to watch out  
for. Next on were the Destructors they played a  
lot better than at the Ace seemingly more acousti-  
med to the smaller venue the set was really good.  
the high spot being a new song 'Nerve Gas'. Finally  
on came one way system but to be honest they were  
disappointing, I think disappointed by the poor  
turn out they never really got going and sadly the  
whole set was mediocre.....  
ORGANISED CHAOS/RIOT/CLONE & SUBHUMANS-Feltham fc  
Organised Chaos the first band on tonight 31/4/83

Came as a bit of a surprise as they were not advertised  
and I don't think anyone new they were playing  
until they walked on to the stage, unfortunately  
they weren't at their best and the whole set was a  
bit boring, the only high spots being Victim and  
New Face. On next were Riot/Clone a group I've nev-  
er seen before they started by putting on a tape I  
think it was supposed to build up an atmosphere un-  
fortunately because of impatient cries from the crowd  
and inaudible words it failed, Any way the set in all

was pretty good, it had it's bad points sure enough  
but these were outnumbered by the good points (sic)  
the best tracks were 'running', 'death to humanity'  
'H-Block' and 'Bottled OI' which I was amused to  
see a load of skins dancing to. After about 10 on  
came the Subhumans the crowd loved every minute of  
it however I don't think they were by any means at  
their best it seemed a lot of the time like they  
were experimenting and certainly there were a num-  
ber of new (to my ear, anyway!) songs in the set, ie  
Word Factory, & Reality is waiting for @. BWS. (!),  
as well as a number of established unreleased track  
s (Evolution, Germ).....  
Gods tears, Meet the Poet, Youth in Asia, Omega Tri-  
be-Moonlight: 3/4/83. Two of the above names meant  
absolutely nothing to me as I suspect they did to  
most other people at the Moonlight on Sun day, one  
was a group (GOS TEMPLE) the other APT. GODS TEAR left abso-  
lutely no impression on me or any one else for that  
at matter...thankfully the set was brief. Meet the Poet  
'came on after Youth in Asia he was young (about 16),  
and much to a few peoples disgust (pratts) he did  
not look like a stereotyped punk rocker he only  
did one poem lasting about 15 minutes and on the  
whole it was quite good, the effect added to by a  
series of slides shown behind him, my only complai-  
nt is that he went on for too long and it got a  
little monotonous towards the end. The second Band  
to make an appearance to night were Youth in Asia  
I must admit I had mixed feelings towards them  
before I saw them, having only heard Power & the  
Glory on Bulshit 2. However my fears were allayed  
they played a very enjoyable, powerful, set. They  
had their own small following present who were by  
no means disappointed and the band had no trouble  
in getting an encore. However even Youth in Asia's  
Excellent set was forgotten about when Omega Tribe  
hit the stage they started with 'time for change'  
and proceeded to do an excellent, highly original

NODDY & THE NYMPHOS - Woking centre halls  
 WOKING YOUTH ARTS FESTIVAL (OR SOMETHING LIKE THAT)  
 Noddy & the Nymphos, Wokings leading punk band had what can only be described as an 'interesting' engagement tonight, to play to a crowd comprised mainly of 8 year olds their parents and wankers in suits and posh dresses... even the mayor was there; And despite the fact that the sound was apallingly quiet (to preserve the mayors ears no doubt) they managed to do a highly enjoyable, if rather short, set. The highspots of which were covers of Warhead & Blue suede shoes!! and one of the bands own songs called 'Living' which was excellent.

set, my only complaint is that 'Nature Wonder' was 'n't nearly as good live as it is on the record..... Part one/Naked/A-Heads/Subhumans-100 Club 12/4/83. The 100 club was understandably packed for tonight's spectacle and the large crowd was not to be disappointed, well not disappointed after Part 1 had left the stage, their set was to say the least uninspiring, this not being helped by the bands apparent total lack of interest... if they ever wish to get anywhere their gonna have to do alot better than tonight's showing. Next on were the incredible Naked their set was amazing, taking in a mixture of tracks from their demo and more up to date ones. Unfortunately they did not announce their songs so i don't know the names of any of the new ones suffice to say they were all really good of the older songs the ones that stood out most were Suicidal State, Die Blind, and of course Mid 1930's/Pre war Germany. My only complaint is that they didn't play the excellent 'Promised Land'.... The A-Heads had an impossible task, following up Naked... a task they sadly failed in. Although they also are a great band on their day, today was obviously not their day, the set although very good was mediocre by their standards this was not helped by the band they had to follow up. The best song was the excellent Squatland the worst, No Rule which they cocked up. The Subhumans had little trouble following the A-Heads, mind you the mood they were in tonight they could have followed anyone, they had the audience in the palm of their hands right from the start, and they didn't disappoint anyone. The set was the best i've seen them do. Confirming that they are one of the best bands at the present time.....

I'VE BEEN TO QUITE A FEW MORE GIGS  
 BUT I HAVEN'T REVIEWED EM FOR LACK  
 OF SPACE ETC.....

## PROPAGANDA COMPILATION LP PROPAGANDA RECORDS (Finland).

A last confirmation that punks not dead...it's on holiday in Finland(sic). Or so this record would have us believe, 11 bands, 35 songs, all from Finland. The most notable aspect of this record is that nearly all <sup>are</sup> are very short (23 are under 1 & a half minutes) However this is in no way demeaning.. the only real disadvantage is that there all sung in Finnish. The first band on the record are the Bastards, perhaps Finland's most well known punk band(?). They contribute 5 tracks all of which are pretty fast, except for a few more restrained moments in 'Lahdataan ne (Slaughter em). Not the best band but a good start never theless. The second band are Antikeho (Antibody) they do 4 tracks and although 2 of them are quite fast the band definitely can't be accused of relying on speed as an excuse for a song they sound one of the most competent bands on the album. The other two tracks are both pretty slow (and very good!). Next come Kaaos they do three tracks all of which are pretty fast, they're OK but nothing special. Next come next they do four tracks again they're quite fast...nothing like thrash but fairly 'brisk' and pretty enjoyable. Lastly on side one come Terveet Kadet (Healthy hands) they do two tracks which suffer from bad sound quality, the second track sounds as if its live...not all that impressive. On to side two and the first band on are Riistetyt (Exploited), (Their singer has a moheican too!). However their miles better than their British counterparts. They do five tracks with such wonderful titles as 'I can't stand living' & 'Fuck off nazi bastard', a bit crass but the music's good. On next are OI3, completely different to everything before them they do 3 tracks all of which are pretty 'poppy' without being stupid like the ~~XIXIX~~. I think they're ~~really~~ excellent!. Next come Maho Neitsyt (Barren Virgin) they do 2 tracks, one the wonderful anthem 'Donald duck is pregnant, even the singer reminds me of a duck', need i say more.. Appendix come next they do 2 tracks including the longest on the record at 3.30. As a direct contrast the next band - Sekunda (Secondrate) fail to make any of their 3 tracks last more than 30 seconds.... Finland's answer to Disorder? The last band on the album, Dachau, do 2 tracks, one fast one slow..Not a bad ending.

11 bands, 35 tracks, approx 45 minutes of music, all in all an excellent record. Highly recommended - £5.00 (including p+p) from P. Tuotanto, c/o Voitto Vasko, 76780 Lamminmaki, FINLAND.
